

# Keep it in the Loop

Name \_\_\_\_\_

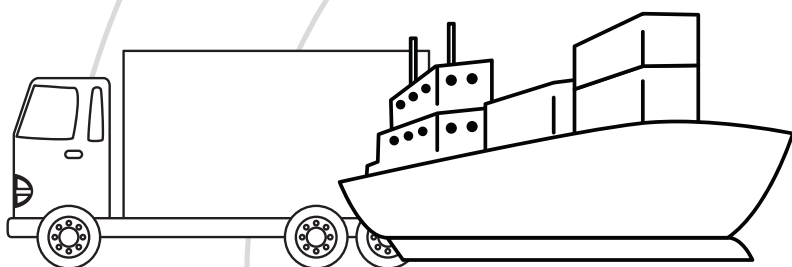

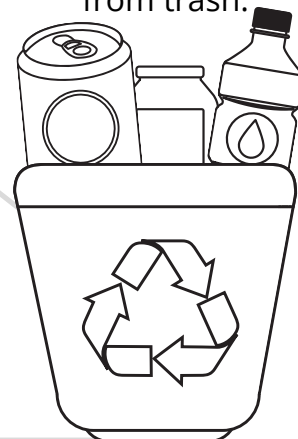

The recycling loop helps save natural resources and reduces the amount of trash sent to landfills.

Recyclables are made into new products.

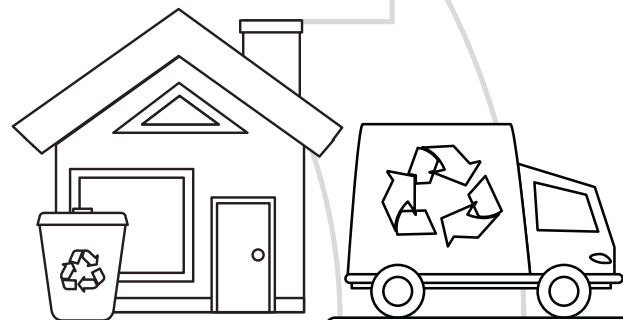

Learn what can be recycled.

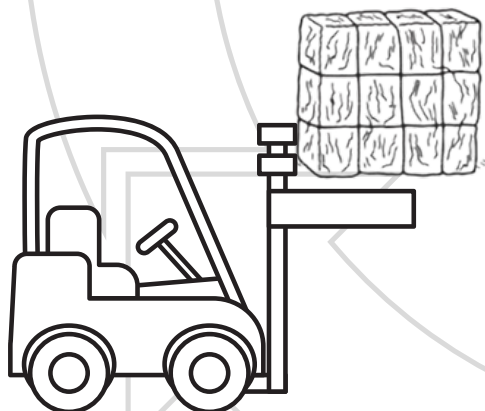

Clean and separate recyclables from trash.

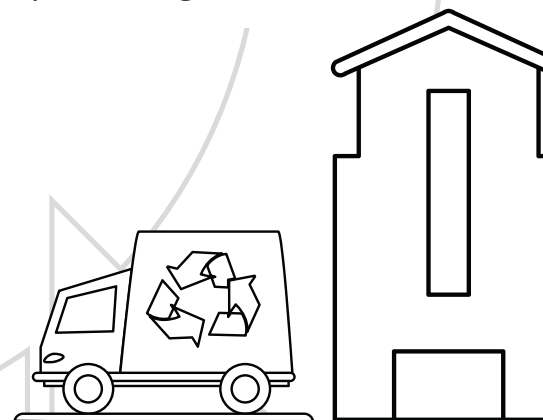

Recyclables are sold all over the world.

Keep recyclables loose not inside plastic bags.

Machines are used to separate different recyclables.

Recyclables are sent to a Materials Recovery Facility (MRF).

Each type is baled together for transport.
